

Breastfeeding Policy

New Day Children's Center recognizes that breastfeeding is the ideal method of feeding and nurturing infants, providing many health benefits to both infant and mother. We are committed to providing you with a convenient and comfortable environment for breastfeeding.

- You are welcome to come into the center anytime during our hours of operation to breastfeed and bond with your baby.
- Center staff will coordinate feeding times with the mother's normal feeding schedules.
- We will provide you with a comfortable environment for you to feed in the classroom or in our staff room if you choose a more private setting.
- The center will not introduce any food or drink other than breast milk unless requested by the parent.
- Breastfeeding shawls are available upon request.
- Breastfeeding resources are available and can be signed out from our resource library at anytime.
- Center staff receive training on the best practices that support breastfeeding and on the proper handling of breast milk.
